ABOUT

A Full Stack Developer with over three years of experience. An Oleh Chadash from the United States. Moved to Israel independently at the age of eighteen, in 2018. Learned Hebrew and enlisted in the Golani Brigade.

EXPERIENCE

FULL STACK DEVELOPER

Playdigo · Full Time · April 2024 - Present

- Integrated APIs of demand and supply side platforms to help improve campaign optimizations
- Developed server-side solutions using Node.js, Nest.js, TypeScript, and PostgreSQL
- Built company dashboard using the latest version of React with Typescript and Vite

Evomake · Full Time · April 2022 - March 2024

- Developed production web applications, backend servers, API services, and automated scripts in an agile environment
- Built and maintained scalable fullstack solutions with Node.js, React, MongoDB, PostgreSQL, AWS, Docker, various styling libraries, testing frameworks and more
- Integrated hundreds of third-party APIs
- Developed and architected company-wide error handling and logging systems
- Served as the go-to debugger/problem solver, helping teammates resolve complex challenges

ACADEMIC BACKGROUND

CYBER 4'S

Scale-Up Velocity August 2021 - March 2022

- Selected from hundreds of applicants, eighty were accepted, less than forty graduated
- Completed a rigorous, exclusive six-month fullstack development program tailored for former IDF combat soldiers transitioning into tech careers
- Developed multiple fullstack projects under tight deadlines, demonstrating adaptability and rapidly acquiring industry-standard skills

MILITARY SERVICE

INFANTRY SOLDIER GOLANI BRIGADE

Israeli Defense Forces 2018 - 2021

- Served as a Light Machine Gunner (Negavist) in the Golani Brigade
